

Anticipatory Management System

Real-time is too late. Be ANTICIPATORY

- ✓ Anticipate risk
- ✓ Eliminate waste
- ✓ Fast setup
- ✓ 100% flexible
- ✓ Pro-active support

Single Platform

-  Supply Forecasting
-  Cost & Risk Analysis
-  IRT
-  Drug & Supplies Management
-  Direct-to-Patient
-  Supplies Return and Destruction
-  ePRO
-  eCOA
-  Cell Therapy Supply Management
-  Autologous Supply Management
-  Radiopharmaceuticals Supply Management
-  Veterinary product Management

Your Benefits

- ✓ Accurate supply planning
- ✓ Prompt build
- ✓ 100% Flexible
- ✓ Studies of any complexity
- ✓ Unique supply management algorithm
- ✓ Smooth change management
- ✓ Anticipatory risk control
- ✓ Drastically reduce supply waste!

True Partnership

- ✓ Proven record of successful partnerships
- ✓ Robust expertise
- ✓ Client focus

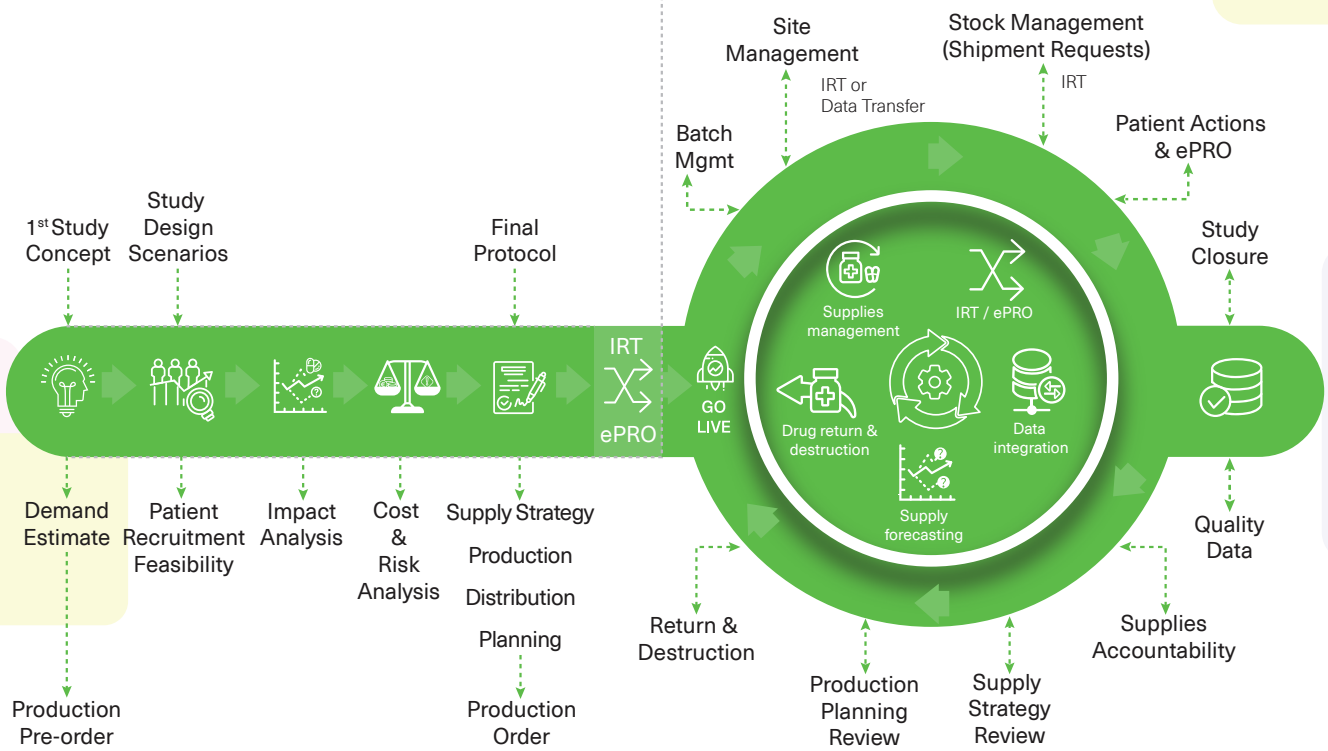

“S-CLINICA is the vendor for complex projects”

- Top-5 Pharma-Biotech Client

ClinVision helps at every step

BEFORE GO-LIVE:

AFTER GO-LIVE:

At 1st study concept:

- ✓ Start with limited study information

Results:

- Initial demand estimate
- A "Production Pre-order"

Before study go-live:

- ✓ Analyse the feasibility of recruitment targets
- ✓ Analyse alternative scenarios
- ✓ Analyse how study changes impact production & distribution plans and costs
- ✓ Identify the optimal Cost & Risk scenario
- ✓ Identify the optimal supply strategy

Results:

- Optimal supply chain configuration
- Distribution plan
- Quantities to produce
- A "Production Order"

Close to go-live:

- ✓ Smooth launch of IRT
- ✓ Fully flexible (study of any complexity)

Results:

- Fast set-up
- Smooth UAT

After study go-live:

- ✓ Manage batches
- ✓ Manage user accounts (via IRT or data transfer)
- ✓ Manage countries and sites
- ✓ Review the feasibility of recruitment targets
- ✓ Investigate alternative scenarios (safe mode)
- ✓ Adapt the supply strategy by using real-time study data
- ✓ Review & plan subsequent production campaigns
- ✓ System-alerts enable enhanced proactive project management

Results:

- Accurate supply management
- Reduced wastage and risks

Changes management:

- ✓ Impact analysis
- ✓ Investigate alternative scenarios (safe mode)
- ✓ Communication

Results:

- Smooth change management

Study Closure:

- ✓ Clean study data in real-time

The solution for complex clinical trials

A single platform for clinical trial anticipatory management

Clinical Supply Forecasting

Cost & Risk Optimization

- ✓ Studies of any complexity and scale (adaptive design, cohorts, etc.)
- ✓ Easy start with limited study data
- ✓ Anticipatory management
- ✓ Supplies pooling
- ✓ Investigation in a safe mode
- ✓ Accurate supply forecasting
- ✓ Cross-departmental collaboration
- ✓ Use of real-time IRT data

Cell Therapy, Autologous, Radiopharmaceuticals Supply Management

Full tracking, real-time management

- ✓ Management of short lead time for transportation scheduling
- ✓ Ordering
- ✓ Real time management at every step
- ✓ Chain of command
- ✓ Communication flow
- ✓ Sponsor-specific processes

Clinical Supply Management

The solution to reduce drastically supply wastage and risks

- ✓ A unique algorithm
- ✓ Management of the entire supply chain
- ✓ Batch management
- ✓ Quarantine management
- ✓ Pooled supplies management
- ✓ Single platform with supply forecasting
- ✓ Direct-to-Patient (DtP)

IRT / ePRO

A fully flexible system

- ✓ 100% flexible, prompt set-up
- ✓ Studies of high complexity
- ✓ Any type of randomization
- ✓ Adaptive design
- ✓ Simple change management
- ✓ Cohort and dose escalation management
- ✓ ePRO and eCOA
- ✓ Advanced reports and alerts

Supplies Return & Destruction

Full visibility throughout the supply chain

- ✓ Full accountability from production to destruction
- ✓ Flexible and adaptable to sponsor's processes system
- ✓ Destruction certificate

Pro-active Project Management

We anticipate issues

- ✓ From set-up to closure
- ✓ Strong expertise
- ✓ True partnership approach
- ✓ Help to identify the optimum supply strategy
- ✓ Interpretation of forecasting results
- ✓ Consultancy on randomization algorithm

Data Integration

Smooth process

- ✓ Full system integration
- ✓ Any 3rd party vendor
